Product Highlights

• SMART Picture

Smart Picture puts you in control and gives you the chance to adjust the picture quality to your personal taste. You can adapt the picture rendition to the quality of tape used or the tape content itself. You can, for instance, filter out the noise of a poor rental tape or increase the details on a high quality recording.

• New Turbo Drive deck

The new Turbo Drive deck offers:

Speed

65-second ultra fast rewind speed.

Reliability

To guarantee an optimum reliability, the heads are automatically cleaned each time a cassette is inserted or ejected.

Intelligence

The Tape Position Indicator, in wind and re-wind situations, displays the accurate position of the tape on the screen and indicates progress by means of a moving/blinking arrow. At any time, you can follow the tape movement on the screen.

• Easy Link

„Easy Link“ is an intelligent link that allows easy installation of a VCR together with an already installed „Easy Link“ TV set. All channels are downloaded from the TV and sorted in the same order in the VCR memory in a matter of seconds. (Digital Follow TV). Additionally, „Easy Link“ offers several convenient functions such as automatic on/off switching of TV, Direct Record or automatic picture ratio setting.

• Turbo Timer

„Turbo Timer“ is a real time-saver for programming a timer for the next 24 hours:

- No need to switch the TV „on“
- All necessary information visible on the VCR display
- 1 minute accuracy
- Minimum of steps
- All steps are carried out using the remote control avoiding the need for bending down to the VCR.
